Summary

About

I'm a Full Stack Developer with over 3+ years of professional experience in designing, developing, and deploying scalable web applications using Angular, React.js, and Node.js. My expertise spans across MEAN and MERN stacks, along with strong proficiency in TypeScript, JavaScript, and modern front-end frameworks.

I have a proven track record of delivering robust, maintainable, and high-performing web solutions, from concept to deployment, for both startups and enterprise clients. I'm passionate about clean architecture, reusability, and micro front-end design, ensuring scalability and efficiency in every project I contribute to.
